PARKER PARTS ORDER AND PARTS EXCHANGE POLICY

1. To conform to industry standards, several important changes have been made in our parts order and parts exchange policy effective 1 September 1956.

The privilege of exchanging one part for another, on a dollar for dollar basis, has been added as described in Section III.

Under no circumstances will used parts be accepted for credit. We are, however, continuing the privilege of returning new parts for credit, in extenuating circumstances. In the case of all parts, except caps or a part not having a special exchange charge, the exchange charge for the part will be deducted from the gross credit in computing the net credit which will appear on the credit memo. In the case of new caps, or parts not having a special exchange charge, which are returned for credit, a handling charge of 10% of the list price of the part will be deducted from the gross credit in determining the net credit.

To be considered as new, a part must pass our inspection and be considered suitable for resale. Any parts received as "new" that are scarred, or have scratches, mars or dents, or are ink stained, or that otherwise do not meet our inspection standards, will be returned.

Please note, too, the minimum net order total which will be required on all future parts orders or exchanges for you to receive your service station discount. This is detailed in Section II.

The terms of Parker's parts order and parts exchange policy and the prices shown in Parker's Repair Parts Price List are subject to change without notice.

Parker's parts order and parts exchange policy and the prices for all parts are effective with all authorized Parker service stations as of 1 September 1956.

- II. Please make certain that the list amount of your parts orders or parts exchange orders is \$30.00 or more so that you can be billed at your usual service station discount. Parts exchanges or parts orders amounting to less than \$30.00 list will be billed at a discount of $33\frac{1}{3}\%$ effective 1 September 1956 because of the disproportionate cost of handling small orders. Parts orders and parts exchange orders can be combined. Merchandise, of course, must be ordered separately from parts.
- III. Any new or used part (Blue Diamond or non-Blue Diamond) can be exchanged for any other available part on a dollar for dollar basis for the current "exchange" charge. This will enable you to more easily control your parts stock and prevent any over-stock or under-stock condition without penalty.

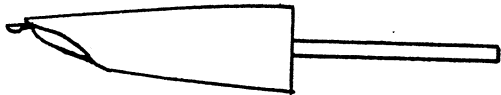

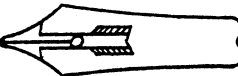

If the parts returned have a greater total dollar value than those ordered, additional parts will be supplied and billed at the order list price. No credit will be issued.

Any new cap can be exchanged for any other cap on a dollar for dollar basis for a special price of \$.40 each. No credit will be issued.

To be considered as new, a cap must be suitable for resale and pass our inspection. Any caps received that have scars, scratches, mars, dents, ink stains, or that otherwise do not meet our inspection standards will be subject to the exchange charge shown. If the exchange and order price is the same, the cap will be returned.

- IV. All prices shown are list and subject to discount of 50% to Authorized Service Stations (except as outlined in Section II). A part listed at \$.50 will be billed to you at \$.25. The order list will apply on consumer repairs where the part is MISSING, the exchange list where the part is DAMAGED.

- V. Where the order list and exchange list are the same amount, no exchange on that part is available.
